AISCT Tech User Agreement

2016/2017

Technology use at AISCT can be summarized as follows:

Grades 1-3: Students have access to school-owned iPad carts to use in class. No other device use in school is permitted without expressed teacher permission.

Grades 4-8: 1:1 iPad program in place. Students are required to bring their own iPads to school to use in class. No other device use in school is permitted without expressed teacher permission.

Grade 9: Bring your own Apple Device (BYOAD), either an iPad or a Macbook. (This will roll out on an annual basis until whole High School is BYOAD).

Grades 10-12: Generic bring your own device program (BYOD). Students will be allowed to make use of other tablets or non-apple laptops in school until BYOAD rollout is complete.

AISCT permits technology use in the classroom under the following conditions:

- The school assumes no responsibility for loss or damage to student owned devices.
- The student is responsible for the safeguarding and security of his/her own device.
- The student agrees to appropriate use of school devices, school GAFE accounts, and school network and accepts that inappropriate use may result in disciplinary consequences. See the Parent-Student handbook for specifics regarding technology and social media use.
- The school reserves the right to examine a student's personal device and search its contents if inappropriate use is suspected.
